

MGC COVID-19 Protocol

Note that this Protocol is a dynamic document and will change as new information becomes available from the health authorities and we gain experience with our processes and procedures. It is posted on the Club's website.

Introduction

The Mississippi Golf Club has the obligation to maintain a safe and healthy environment for our members, guests and employees.

To ensure the safety of everyone at the Mississippi during this COVID-19 pandemic, procedures have been developed and implemented. They have been designed to minimize contact with surfaces and to ensure physical distancing between individuals for your safety and that of your playing partners and course employees.

Compliance

You are expected to comply with the procedures in this protocol. Failure to do so puts you and others at risk and will result in you being asked to immediately leave the premises. It also risks the closure of the facility.
