

Results of the Women's and Senior Women's Club Championships

Our Ladies Club Championship this year was quite the event. On the first day, Saturday August 12th, the day started really nice with a cool breeze and some very warm sun. Then, only 2½ hours later, the rain was torrential, flooding some of the greens on the back nine. Play was stopped as we cannot run a tournament with flooded greens. With the amount of rain coming down and the look of the sky showing more to come, we decided to call it a day. By the time we all got back to the clubhouse, the lightening was detected about 30km away. Glad we were safe in the clubhouse. As the Captain's manual does not specify what to do in such a situation, we decided to count the round as 12 holes as that was the last hole everyone played that was not flooded. In that respect, we recorded 2/3 of everyone's handicap to get our Net scores for the first day.
